About Challenge Partners

Challenge Partners is a national partnership of schools and trusts who believe the best way to reduce educational inequality and enhance the life chances of children is through collaboration, challenge and leadership development. We work together to ensure every school community can benefit from the combined wisdom of the education system.

Our national partnership currently reaches more than 420,000 pupils in over 480 schools and 131 trusts across the country. All fervently believe that working together is the best way to reduce educational inequality and increase the life chances of all children.

School leadership plays a significant role in pupil outcomes, and our practitioner-led programmes and networks offer unique continuing professional development (CPD) for leaders at all levels - from classroom teachers to CEOs.

And our approach works; pupils in our schools consistently achieve more and progress faster than national averages, despite serving a higher proportion of disadvantaged pupils. Inspection and peer review outcomes demonstrate how long-term participation in Challenge Partners leads to sustained improvements over time.

By rapidly sharing innovative practices across the country, we ensure that the most effective support reaches the children who need it most.

About SEND Developmental Peer Review

This pioneering programme is for mainstream schools seeking to enhance their provision and outcomes for pupils with SEND. It features:

- **Expert matching:** to create trusting and supportive groups of schools to provide mutual support and challenge, exchange knowledge, and build strong, lasting partnerships.
- **Developmental focus:** designed to push forward practice and provision, including a written action plan and post-programme follow up.
- **Benchmarking:** training and access to the EvaluateMySchool platform, to identify a baseline to work from and clear development areas.
- **Peer review days:** providing honest, insightful and evidence-based feedback on the host school's self-evaluation. An opportunity to collaborate and co-create solutions.
- **Facilitated school visits:** visiting leaders explore the strengths and knotty issues of the host school, creating an opportunity to collaborate and co-create ideas and solutions.
- **External stimulus from other sectors:** gaining knowledge external to the UK education sector (a distinguishing feature of the programme).
- **Leadership development:** through observation of other strong schools.
- **Development of social capital:** between strong schools.

Schools will be matched in groups of three to four with a dedicated Lead Facilitator. Each school in the group will host an in-school review day involving a senior leader and SENCo from each school in

You will receive ongoing support as a new Facilitator, where a member of the central team may join a visit day and agree on any specific areas of focus with you and how you would like to receive feedback. Professional insights gathered on visit days will also inspire fresh ideas for your own professional setting and practice.
3. **Exclusive Networking:** Join a powerful community of expert SEND practitioners from diverse backgrounds and settings across the country. Connect with passionate SEND professionals throughout the programme and across Challenge Partners' Network of Excellence, fostering lasting collaborations.
